CANTALOUPE CROP HARVEST BEGINS

SITE CONTROVERSY IS BIG ISSUE

Council To Study Petitions Presented

Three petitions were presented to the Mayor and Board of Aldermen at the regular meeting of the official family Tuesday night.

August Horstmann, prominent businessman of Cameron, first presented a petition with a number of the firemen's signatures. Then he presented another petition with around 130 signatures, both calling for the erection of the fire station, a place for the city offices, a new fire truck and other city needs on the present location of the fire station.

Mr. Horstmann expressed his viewpoints and outlined why a large number of citizens wanted to put the building on the present location. He said there were several who did not sign the petition, since they thought the building should be built in some other part of the city. Mr. Horstmann presented a thorough discussion, emphasing that the building would be best located at the present site.

When Mr. Horstmann finished his discussion, Mr. Green asked if there were others present desiring to bring anything before the council.

Thomas Brashear, cashier at the First National Bank, representing the Junior Chamber of Commerce, asked the Council to rescind that part of the motion that was made and passed at a previous council meeting, which designated that the location of the building be the present site and the adjacent lot. The Jaycees disapproved of this part of the motion since it called for a bond election to build the municipal building on that particular location.

Mr. Brashear told the council an election should be called to vote the bonds for the building and to determine the location since the people or taxpayers would like to have a voice in the location of the building. The Jaycees believe the majority of the citizens would be in favor of a more central location.

He asked the council to give this deep consideration as the Jaycees want to back everything progressive for the city of Cameron and the correct location of a municipal building is a major project.

Alderman L. Van Perkins stated that he had a similar motion fixed out to bring before the council but since one of the aldermen was absent, he thought it was not the proper time or respect to decide on such a

Lee Braun Buried At Milano Saturday

Funeral services for Lee Braun, 60 were to be held at the Family residence in Milano, Saturday morning June 16, at 11 o'clock with Rev. Edward Ledbetter, pastor, First Methodist Church, Milano, officiating.

Interment will be made in the Milano Cemetery with Marek-Burns Funeral Home directing arrangements. Palbearers will be members of the Masonic Lodge.

Mr. Braun was found dead Thursday morning around 8 o'clock at his home, apparently from a heart attack. He was born at Lampasas, in Burnett County in 1891. He had been a resident of Milano for the past 42 years where he was employed as a telegraph operator by the Santa Fe Railroad Company. He was also a member of the Methodist Church and was active in the work of the Masonic Lodge and gave much of his time and efforts to this organization of which he was secretary.

Mr. Braun was a prominent citizen of his community and was highly interested in its progress. Citizens of The Milano Community realize a great loss in losing such an outstanding citizen. He was a frequent visitor to the city of Cameron where he was well known and had a host of friends here who were shocked to learn of his sudden death.

Surviving are his widow, Mrs. Lee Braun, one son, Dudley Lee Braun of San Maeto, California, one sister, Mrs. Madie Harrison of Waco. Two Grandchildren and two neices also survive.

TEN MEN FOR INDUCTION IN JULY

125 Summoned In Special Venire

R. G. Vaughan, Cameron businessman, went on trial for the Murder of Jack Parker of Iowa, in District court Monday, June 18.

Mr. Parker was fatally shot at Mr. Vaughan's place of business on the night of April 28, 1951.

Mr. Vaughan dresed in Khaki trousers and plain shirt sat with his attorneys, E. A. Camp of Rockdale, Emory B. Camp, and Don Humbles.

The State is represented by County attorney, Ed Gunn and Jack Prescott, attorney of Temple.

A venire of 125 persons was called by the Court and summond by Sheriff Carl C. Black. He appeared on the witness stand in connection with the manner in which the jurors were summond. The court overruled a motion by the defense, relative to the order of the court, instructing the sheriff to make his returns of the special venire list.

The court recessed at 10:15 for the defense to prepare a motion of continuance because of the absence of a witness.

The State witnesses are as follows: Mrs. Irene Gandy, George Shonka, J. B. Clark, A. T. Smith, Carl Black, Dr. J. L. Walker, and Miss Mildred Zotz. Witnesses for the defense are Leroy Brently, Mr. and Mrs. Fred Neal, Roy Harrison, Roy Seaton, Edwin Terry, E. C. Mowdy, Buck Whitley, Robert Ainsworth, F. J. Reid, Clarice Bingham, J. B. Clark, Mrs. Gandy and J. E. Whitley.

The court re-convened at 11:30 A. M. and the case will be continued due to the absence of a witness.

Last Rites Held For Walter V. Johnson

Funeral services for Walter Johnson, 70, were held Tuesday, June 19, at 3 P. M. from the String Prairie Methodist Church.

Interment was made in the String Prairie Cemetery with Green Funeral Home directing the arrangements.

Mr. Johnson died at the home of Mrs. A. L. Chesnutt in Calvert Monday morning, June 18. He moved to Milam County when a small child and was reared in the Cross Roads and String Prairie Communities.

He was engaged in farming and ranching until recent years his health prevented him from being active in his occupations. He was well known in that section of Milam County and also in Robertson County where he had many friends.

Surviving are three sons, William Johnson, Frank Johnson, and D. C. Johnson all of Calvert and one daughter, Mrs. Brentley McNeeley of Calvert. Five grandchildren also survive.

S. Emory Brogdon Presented Award By Insurance Company

S. Emory Brogdon, representative of the Southwestern Life Insurance Company has been presented the National Quality Award by the Company.

This is one of the high honors the company presents to their representatives. It is a certificate presented in recognition of his service to the public in maintaing such an outstanding record with the company for the past 34 years.

Mr. Brogdon said this was one of the highest awards a company could present a representative. He is the First Milam County man to receive this award.

Sewer Extension Is Needed In City

L. W. Smith, Supt. of Cameron Water Department, was named chairman of the Cameron polio Clean-up Campaign, it was announced by L. G. Smith, manager at the Chamber of Commerce.

A group of interested citizens, representing the various civic organizations of the city met at the Chamber Wednesday night to outline plans for this drive.

The campaign will be held from June 25 to 29, Mr. Smith said and all citizens are urged to cooperate to the fullest extent to make the campaign successful.

A steering committee will be appointed within the next few days along with other committees and duties will be designated.

The aroma from several sections of the city has been overwhelming in the past two or three weeks. The city has money in the bank for the extension of sewer mains. This is an opportunity for the newly elected councilmen to get something "rolling."

There has been some complaint from Mrs. Canasta that the hot weather is making the "stench" from privy row of a styfling nature. The unpleasant smell is a major threat to the delicate tissues of her nostrils as she "snorts an blows," and openly complains about what the city officials are not dioing.

Mr. Smith has called a Meeting Monday June 18, at 3 P. M. at the Chamber of Commerce and necessary plans will be enacted to carry out the campaign.

A number of cities over the State have already carried out similar drives to rid their town of unsanitary conditions that might cause an outbreak of various diseases. It has been reported there has been an outbreak of polio in a number of Texas cities. This alone should encourage everyone to become interested in cleaning up their premises and take an active part in the clean up campaign. Polio continues to be a major threat to the youth of today.

Prominent Citizen Of Burlington Dies

John Helpert, Sr., 71, died at his home on June 20, 1951. Mr. Helpert was a native of Austria, born February 24, 1880. He came to the United States when he was 25 years old and settled near Burlington where he lived most of his life. He was well known in that part of the county, and was a big land owner in that section of Milam County.

He was a farmer by occupation and had engaged in this activity until recent years. He was well known in Falls County as he had lived near Rosebud a part of his life.

Funeral services were to be held at the St. Michael's Catholic Church, Burlington, at 8 A. M. Friday June 22, with Rev. M. O'Reagan, officiating.

Interment was to be made in the St. Michael's Cemetery with Green's Funeral Home of Cameron directing the arrangements.

He married Anna Olbrich on November 27, 1905 and to this union was born seven children. One daughter died when an infant and one son, Alfred Helpert died in 1937.

Surviving are his widow, Mrs. John Helpert of Burlington, three sons; August Helpert of Burlington, Albert Helpert of Dallas, Johnnie Helpert Jr., of Robstown, two daughters, Mrs. Hattie Stuchly of Agua Dulce, Texas, and Sister Mary Barbara Incarnate Word Convent, Houston, one brother, Henry Helpert of Burlington and one sister Mrs. Hedwig Wisura of Odersberg, Germany. Eight grandchildren also survive.

Wounded 4 Times In Korean Battles

Lt. Walter W. Redd, colored, son of Gladys Redd of Cameron, is with the 25th Infantry Division U. S. Army. He was recently awarded the First Bronze Oak Leaf Cluster to the Bronze Star Medal for heroic achievement, it was annonuced by Brigadier General Sladen Bradley, 25th Infantry Division Commander.

Lt. Redd received the award for outstanding service with Company E, 24th Infantry Regiment on February 2, 1951. He distinguished himself when his unit was under heavy attack by a strong enemy force. Closely observing the course of action, he directed a heavy volume of accurate rifle fire at the critical points of enemy pressure.

Exposing himself to devastating small arms, automatic weapons and mortar fire, he moved throughout the position to coordinate more effectively the perimeter defense and to supervise the evacuation of the wounded.

The Citation read: "Lt. Redd's courage, determination and selfless devotion to duty, inspired his men to repel the attack and are in keeping with the great traditions of the United States Army."

Lt. Redd has been in Korea for 10½ months and is visiting relatives and friends in the city on his furlough. He was wounded four times in Korea and has been overseas since August 1949. He has been in the Army for almost three years.

McAllen Farmer Delivers First Bale

Following a 350 mile dash here from McAllen Saturday night, a Starr County farmer, father of six, arrived in Houston at 1:15 a. m. Sunday with Texas first bale of cotton for 1951 which usually is the first bale of the nation.

Ten Men To Report For July Induction

A call for 10 men from Milam County to report for induction into the armed forces, on Wednesday July 11, it was announced by August G. Kunz, chairman of the Milam County Draft Board.

This is the tenth call for men from this county and they will report to the Love Field Recruiting Station in Dallas for further assignments.

Since the Air Corps and the Marine Corps are both needing men, there is a possibility some of the men being inducted in this call might be taken into these branches of the service.

Both the state and the National draft quotas have been reduced during the month of June and there was no induction call for the month of June for Milam County men. There was no call for pre-induction physicals from this county for June.

Seven men were inducted from Milam County in the Months of May, the smallest number in several months.

Ranch And Feed Store To Open Saturday July 7 In Santa Fe Town

The opening of a new Cameron business firm will be held Saturday, July 7.

The Farm and Ranch Store will be owned and operated by Seth Corley Jr., and Marlin C. Harris, well known young businessmen. The store will be located in the Batte Building in Santa Fe Town formerly occupied by the Cameron Sheet and Metal Works.

A complete line of Red Chain Feeds will be sold at the store, along with seeds, insecticides, fertilizer and other farm and ranch needs. Veterinary and dairy supplies will also be featured among the many items sold by the new business. Western Hatchery Chicks will also be sold. It is always encouraging to see a new business open up in a city and since this is a farming and ranching area of the

Proclamation For Clean-Up Week Issued By Mayor A. N. Green

D .S. Wimberly, city sanitarian, in a report to the city council Tuesday night, stated the necessary plans to carry out a successful Cleanup campaign this season.

The assistance of the Mayor and Board of aldermen have always been a necessity in the campaign in order to make all the needed arrangements, that have been worked out by the steering committee.

The city will rent or lease from the city of Hearne, a truck, truck driver and the necessary materials to do the fogging project in both the business and residential areas for $75 a day. The matreials for the fogging job alone last year, cost the business house $252.00, a little over two days was required to fog the town properly, but the process was held up last year on account of the high winds at that particular time.

Gene Blake, manager of the Coca-Cola Bottling Company has agreed to furnish the transportation to bring the equipment from Hearne to Cameron, that will be necessary for the fogging job.

The town will be fogged after the Cleanup Drive and all citizens are urged to thoroughly cleanup their premises so that the fogging will be more effective.

Mr. Wimberly asked the mayor to issue a proclamation for the Annual Clean Up. The Mayor agreed to do so and asked the city secretary to read the proclamation. Roy Baskin, acting as secretary in the place of W. H. Stafford who was absent on account of illness read the Following Proclamation:

WHEREAS, the time of the year has returned for a co-ordinated clean-up campaign for our City, joined in by each and every one who makes Cameron home, in keeping with the annual custom, which has in recent years meant so much to our community in terms of appearance, sanitation and health, and,

WHEREAS, individuals and organizations interested in the public welfare have cooperated in getting this city-wide campaign under way, and are appealing, and will continue to appeal, to all alike to enter into this year's drive with the determination to wind up with the neatest, healthiest and happiest city we have ever had; and, whereas, the time chosen for this clean-up season is that five-day period, June 25th to June 29th, inclusive:

I, A. N. Green, Mayor of the City of Cameron, with full approval and sanction of the City Council, do hereby proclaim June 25th through June 29th as the official 1951 Clean-Up Season, in which all citizens are urged to take active, individual part as a matter of civic pride. You will receive instructions and information from tme to time as to the conduct of the campaign, and the ways in which you may help; and you are respectively invited and urged to follow these plans and suggestions for the greatest good to the greatest number of your friends and neighbors and all our citizenship.

THIS 19th day of June, A. D. 1951.

A. N. GREEN, Mayor.

Marlow Farmer Is Early Producer

Milam County cantaloupes are arriving on the market. Spencer Short, well known truck farmer of the Marlow Community sold two loads of luscious cantaloupes to an out-of-town trucker the first part of the week. The two trucks were loaded with approximately 400 bushels, and were bringing a good price at the patch.

Mr. Short has a bumper crop of cantaloupes and planted around 9 acres this season. He raises some of the best cantaloupes in this part of the county each season and since his crop is somewhat earlier than usual, he will realize a good return for the investment. The cantaloupes this year are of good quality and the weather conditions have been ideal for growth and production of this popular product.

Whether or not Milam County cantaloupes have reached the local market was not known but they have been shipped in from the valley to local stores for the past few weeks. The taste and quality of the valley cantaloupe is good but cannot equal that of the Milam County product. It has been said that the soil of this county is ideal for the production of canaloupes both in taste and quality.

As the season progresses other farmers will be heading for distant markets with their produce. The cantaloupe season usually lasts about four weeks and those reaching the market before the 19 of June are considered in the early producing bracket.

Harvesting and marketing should get into full swing within the next week, and with a good quality product truck farmers should realize considerable income from the crop this season.

On account of the mildew, the crop in 1950, the income from the crop was less than in previous years.

It was reported that cantaloupes were selling on the Dallas market for $3.50 a bushel.

The Stroud Family Holds Big Reunion

The W. D. Stroud family held a reunion Sunday June 10, at the home of Mr. and Mrs. Charlie Worchester at Salem.

Twenty-one families were represented with a total of sixty-four present to enjoy the occasion. Guests began arriving at 2:30 p. m. on Friday preceding the day set for the reunion and fifty spent Saturday night in the Worchester home. Mrs. Worchester says its lots of fun to make beds for a large group.

Those attending were: Mrs. Mattie Bivins, Mrs. Ola Thrice, Miss Clara Ensey and Mr. and Mrs. Lonnie En-

Citizens National Bank Announces Half Million Capital Structure

Mr. Oxsheer Smith, President of the Citizens National Bank, announced today that the Board of Directors of the bank has made an additional increase in the Surplus Account of the bank in the amount of $100,000.00. With its present Capital Stock of $100,000.00 and the Surplus now at $400,000.00, this makes The Citizens National Bank have a capital structure of one half million dollars.

Mr. Smith explained that the Board of Directors in the past, have been increasing the bank's capital structure in keeping with its increased business volume, the increase in the price level, requiring more funds to finance the needs of its customers, and the increase in deposits, which good banking dictates should have a capital base in proportion, and the increase at this time of $100,000.00 expresses the confidence of the Board in a continuation of the present trend. It was also pointed out that this increased strength is for the protection and benefit of the depositors and businessmen who use the facilities and services of the Citizens National Bank. The Bank prides itself on maintaining modern up to date services and facilities and the fact that it has always taken every step possible to render the best in protection and strength to its depositors.

Deadlines For Veterans Benefits Has Been Set For June 30, 1951

The fiscal year of the government ends June 30, and is the deadline for several veteran's benefits, according to H. B. McClellen, Veterans County Service Officer.

One such benefit is Terminal Leave Pay. All World War II enlisted men discharged before September 1, 1946 must apply before June 30 if they have not already done so. Those discharged later were paid when they were discharged. Widows, children and parents of veterans who died after discharge and hadn't applied, are eligible.

Another benefit which expires June 30 is the direct home loan. Veterans may obtain VA guaranteed home and business loans from private lending agencies until July 25, 1957, but June 30 is the deadline for obtaining direct home loans from the VA. In order to get a direct loan, the veteran must not yet have used any of his GI loan entitlement, and must be a "satisfactory credit risk."

Unless congress extends the deadline, the VA will no longer buy automobiles for amputees after June 30. Those who have lost, or lost the use of one or both legs at or above the ankle resulting from World War II are eligible for a payment of $1600.00 on an automobile.

Draft Quota Set At 485 Men For Month Of August

AUSTIN, June 19—An August draft quota of 485 men for Texas was announced Tuesday by state selective service headquarters.

The August call compares to a July Quota of 367 and a June quota of 521. It is the state's share of a national quota of 22,000 men announced in Washington last month.

Brig. Gen. Paul L. Wakefield, state draft director, said the August call brings the Texas total since the beginning of the Korean war to 27,692 men. During the same period the entire nation has been called upon to furnish 587,000 men.

Local board quotas have not been determined by state headquarters. General Wakefield estimated that calls to boards will be issued about June 27.

The draft director said there will be no physical examination of registrants scheduled during July or August, as the state now has "a sufficient pool of men examined and acceptable to take care of induction needs."

All of Mr. and Mrs. Angells children were there for the day except their son, B. F. Angell of Brazoria. Mr. Angell received many nice gifts.

First Bale Brings $3,050 To Producer

HOUSTON, June 18— Sylvester Martinez, who farms 60 acres of irrigated land in Starr County, was $2,792 better off Monday because he brought to market the first bale of cotton in the nation this season.

The bale, picked frantically Saturday, was auctioned on the Houston Cotton Exchange about noon Monday. It brought $3 a pound, a new high and an additional purse of $1,325 for a total of $3,050. Ordinarily it would have brought $257.83 at ceiling price.

The bale weighed 575 pounds, but Martinez had to make two tries. The first bale produced Saturday weighed several pounds less than the 450 pound minimum set by the exchange. Faulty scales in the field were blamed. But Martinez pickers still were working. Trucks were rushed back to the field, more cotton obtained, the bale reopened, and the additional cotton added. Then it was rushed here by truck.

Thorndale Man First Milam County Soldier To Arrive In Europe

A Thorndale man serving in the army Pfc. William Rodenbeck, is the only Milam County resident to be one of the very first soldiers to arrive in Europe to augment General Dwight D. Eisenhower's Atlantic Pact troops.

Pfc. Rodenbeck is serving with the advance party of the famous Fourth (Ivy) Division, temporarily quartered in a huge tent city near Mannheim, Germany. He is assigned to the Quartermaster Corps as a truck driver. His parents are Mr. and Mrs. W. C. Rodenbeck of Thorndale.

Everything possible has been done to make life comfortable and convenient in the tent city, called "Camp Y-79." It operates as a staging area. receiving all Fourth Division men and equipment. Able to accomodate 18,000 men, it was erected in only three weeks in the midst of bombed-out buildings which once formed a gigantic German air base. The camp has its own telephone system, bus service, post exchange facilities, chapels, theatres and other recreational areas. Life in Mannheim, situated on the Rhine River and one of Germany's largest industrial centers, is bright despite heavy war damages.

Mrs. Gladys Pyeatt of Fort Worth and daughter Frances Jean and grand daughter, Pam Vardeman are visiting Mrs. S. W. McClaren Sr. this week. They plan to leave on Wednesday.

A Good Breakfast? You Bet!

Put a good breakfast in front of any teen-ager and you can bet he'll take the time to enjoy it! Then, too, you'll know that he will have a better day because of this "better breakfast", that he will be better at his work and play because he starts out with a nourishing, well-balanced meal under his belt.

Seasonal fruit with a ready-to-eat cereal is an ever-popular choice —specially when the cereal is candy-coated puffed wheat—a top favorite with the younger set. Following this, bacon and eggs, milk to drink, and tempting hot muffins like those suggested below, will serve to complete the menu. Add marmalade and butter for extra energy; the teen-ager needs plenty of this for the big day ahead of him:

Best-ever Bran Muffins

1 cup sifted flour
3 teaspoons double-acting baking powder
2 tablespoons sugar
¾ teaspoon salt
⅓ cup shortening
1 egg, well beaten
¾ cup milk
1¼ cups 40% bran flakes or raisin bran

Sift flour once, measure, add baking powder, sugar, and salt, and sift again. Cut in shortening. Combine egg and milk and add all at once to flour mixture. To mix, draw spoon from side of bowl toward center (15 times), turning bowl gradually. Chop spoon through batter (10 times). Add flakes and mix (about 5 strokes). Turn into greased muffin pans, filling each about ⅔ full. Bake in hot oven (400°F.) 20 minutes, or until done. Makes 8 to 10 muffins.

For Date Bran Muffins: Add ½ cup finely cut dates to flour-shortening mixture. Proceed as directed.

Mr. and Mrs John R Baldwin and children are visiting in the home of Mrs Baldwin's father, Judge John Watson. Mr. Baldwin left today for home in Baytown but Mrs. Baldwin and children will remain for several days.

WITH THE GUARDSMEN
by Charles Adair

Camp Polk, La.,— The National Guardsmen from Central Texas once again became victims of the weather as they set through a rain and wind storm Thursday while waiting for a scheduled air show to start.

Over 50 per cent of the 649th Anti-Aircraft Battalion, made up of men from Temple, Taylor, Belton and Cameron, were caught on the open target range at Camp Polk without their raincoats and were thoroughly soaked by the 3-4 inch rain which lasted only 36 minutes.

The air force proved to the men of the 649th AAA AW Bn that they are good to have around. Seventeen F-51's flew in, firing rockets, 50 cal. machine guns and dropping napalm bombs and 250 lb. bombs on a given target and completely destroyed it. They laid down a smoke screen which completely enveloped the troops as the wind blew the body of smoke over them.

By Friday the training schedules of the different batteries were in full swing with most of the men hitting the firing range early and qualifying themselves with 50 caliber carbines. PFC John Lusk, from Headquarters battery in Temple, had a little trouble with control of the carbine as he put 3 shots in the target props while firng at a 5'x5' target only 28 yards away.

Battery "D" from Belton is fast shaping up into one of the better marching units of the 649th as they can frequently be found in from of the barracks giving their version of Vaughan Monroe's "Sound Off," in close order drill, usually to the dismay of most of the other troops. Many of the men from Headquarters battery are being used as instructions. Sgt. Joe N. Stepan, and Sgt. William H. Carter have held classes in radio and wire communications daily.

The progress made this far at camp was pointed out by Lt. Joe N. Russell, commanding officer of Headquarters Battery, as he said "the co-ordination and cooperation of Headquarters Battery personnel in getting our summer camp functioning as a military organization is far advanced compared to previous training periods. Our work is hard but interesting and I feel that all personnel will gain a valuable and lasting

The 649th Anti-Aircraft Battalion sharpened their sights on the rifle ranges at Camp Polk La. for many or the men it was a new and exciting experience to hear the wack of a 50 calibre bullet hit the target 1000 inches away.

Colonel Olin F. Brewster, Battalion Commander, Major Charles F. Baker, Executive Officer, and Major Robert B. McBurney, Plans and Training Officer, qualified with the 45 calibre pistol Tuesday, and it's rumored Col. Brewster spent two hours Tuesday night cleaning weapons as he was low man on the score board. Enlisted men from all the Central Texas Batteries were on the range Tuesday getting instructions and and qualifying with the carbine.

Army life is catching on with most of the men as Lt. David W. Chalmers of Battery "A" in Temple found Tuesday night. Lt. Chalmers was Officer of the Day and while inspectings the guard, he was halted by the guard, Pfc. Earl Johnson from Belton and asked him who was the commanding general of Combat Command "B". After Lt. Chalmers failed to identify himself by stammering and stuttering a bit, the corporal of the guard was called and Lt. Chalmers found himself in a pickle.

Pfc. John T. Morgan of Temple is trying to learn all he can about army life, as he volunteered for KP to learn just what all this KP business is he's heard so much about. Too, Private Oscar Graham is quickly learning of some of the old army tricks as he was looking Wednesday for someone to tell him how many "kaynats" the sergeant needed for lunch.

Russian Aircraft Shot Down by Allies

(From the Daily)

TOKYO, Tuesday, June 19— The Communists strengthened their lines in North Korea Monday for a possible ne woffensive, but decisively lost a new test o fstrength in the air with American jet fighters.

The Reds hurled a total of 56 Russian-built jet jlanes at 37 American F-86 sabres in "MIG-Alley" just south of the Manchurian border in two spectacular actions Monday. Five Russian-built MIGs were shot down and two damaged without loss or damage to the 5th Air Force planes. In one scrap th eodds were 16 MIG's to four Sabres but th espeedy F-86s escaped harm.

It was th esecond consecutive day of jet battles. An Sunday 20 Sabres outfought 25 MIG's, destroying one and damaging six without loss to themselves. The two-day total bag thus was six MIGs destroyed and eight damaged.

While Communist planes showed more aggressiveness in the air, fresh Chinese troops were reported near on th ewestern and central fronts.

Field dispatches— so heavily censored that th ewar picture was blurred—said the Chinese were digging in below Kumsong for protection against Allied Air and artillery. Kumsong is 29 miles north of the 38th parallel and 12 miles northeast of Kumhwa in mountainous central Korea.

Good-sized Allied armored patrols bulled their way through an increasing volume of enemy fire to hunt concentrations. The tanks and troops drew heavy mortar fire over roads seded with land mines. At one point north of Kumhwa an Allied patrol was forced to turn back without joining forces with another tank patrol.

The 8th Army communique Monday night estimated 237 Reds were killed in th eencounter, out of a possible 700 or 800 attackers.

Generally the Reds were content to remain in their strong hill entrenchments south of Kumsong and pour fire down on Allied patrols.

Dr. Walker Lectures On Blood Plasma At First Aid Course

Eight person completed work toward certificates in the advance First Aid Course offered by Miss Dallye Young for American Red Cross, Wednesday night. This group with others from over the county who are eligible will take the instructor course in First Aid when a field representative of Red Cross may be secured.

Outstanding in interest in the 12 hour advanced course was the demonstration given by Dr. J. L. Walker on Monday evening on the preparation for giving blood plasma to accident victims. He showed use of plasma and its possibilities in case of bombings. More civil defense instruction is expected to be included in the instructor course since Red Cross has added a Civil Defense Supplement to the work formerly offered.

Completing the course Monday evening under Miss Young's capable instruction were Mrs. Alva E. Sanders, J. B. Short, Mrs. J. L. Walker, Mrs. Adolf Winfield, Miss Anna Lee Kirk, Paul Dillon, Bobby Balhourn, and Mrs Ben Reichert.

Young Dillion, a Boy Scout told the group how he had already used the First Aid instruction he had received in class to a great advantage in his home when his brother cut his foot badly on broken glass and was bleeding profusely. Paul applied direct pressure to the cut stopping the flow of blood and saving his brother from weakness, shock and other bad after effects of substantial blood loss.

Changes Are Made In Recruiting Policies For Enlisting Marines

Austin Marine recruiting headquarters announced today that the Marines are now authorized to report for induction into the Army.

Master Sergeant J. A. Coreno, recruiting sergeant, disclosed that this is a change from previous recruiting policies of the Marines, which prohibited the enlistment of men who had received their pre-induction examination notice.

This new change will take effect on June 15 and will continue for 30 days, said Sgt. Coreno, and it is not known if it will remain in effect after that.

Sgt. Coreno said that the draft boards of men enlisted would be notified of men enlisted so that records could be kept straight on these men enlisted.

Mr. and Mrs. Vernon Mayfield and little son, Jack of San Antonio recently visited in the home of his father, Mr. and Mrs. J. C. Mayfield.

Bill Helner of Pharr visited friends in Cameron last week end enroute to his home from Fort Worth where he had spent a week with friends.

Mrs. Rosa Kemp Adams and sister, Mrs. Lucille Kemp Byrom of Houston are spending several days in the Kemp home on West Main Street.

Miss Jessie Lowenstein Returns From Enjoyable Trip To New Orleans

Miss Jessie Lowenstein has just returned from a most interesting and enjoyable trip to the Cresent City, New Orlean, She toured many of the beautiful sites of the old city which is known the world over for its delicious sea foods and famous resturants.

One of the outstanding attraction to visitors especially if they are gourments, as she is, is the very delicious and tasty sea food. She had several meals at the original seafood resturant, Brunings.

She visited the French Market and Royal Street where all of the renowned antiques shops are located.

Miss Lowenstein toured the French Quarters which are noted for their narrow streets as well as the beautiful cathedrals that have been there for many years.

On Thursday, June 7 she was a guest at the Chamber of Commerce Luncheon held in the Gold Room of the Roosevelt Hotel. Other places of interest she visited were the Huey P. Long Brige, Lake Ponchatrain Andrew Jackson Square, Tulane and Loyola Universities.

Two Negroes Injured In Collision Friday Night On Highway 77

Two negro men were injured in a head on collision around midnight Friday approxmately half a mile north of Ben Arnold on highway 77.

James Phillips and Fate Green, negroes of Cameron were taken to Newton Memorial Hospital and treated for minor injuries.

Phillips & Green driving a 1935 Ford Coach were headed north on highway 77 when they collided head on with a truck driven by Leroy Hill of Route 2, Rosebud, who was driving a 1940 International truck.

Highway patrolman, Jack Higginbotham investigated the accident and reported the vehicles were extensively damagd.

It was reported early Saturday the two negro men would probably be released from the hospital today.

METER COLLECTION

A total of $202.84 was collected from the Parking meters Thursday, June 14, it was disclosed by Bill Richter, assistant officer in charge of collecting.

The total is up over the $200 mark which is a good indication the city will continue to realize considerable income from the meters.

The Magers Return From Enjoyable 2 Weeks Vacation In The East

Dr. and Mrs. Mark C. Magers returned Saturday from a two weeks vacation in the Eastern States. They left on June 4 and stopped at Barksdale Field at Shreveport, Louisana where they visited their son, Major Robert D. Magers who is stationed there. He was recently called back to active duty with the Air Corps. He received his Masters degree at the University of Texas in May.

The Magers toured the State of Tennesee and enjoyed the cool mountain climate which is so popular with tourists during the summer months. Dr. Magers has been Minister of the First Methodist Church for the past year and was recently returned here by the Methodist Conference held in Houston the early part of June. They have made many friends in the city who were glad to learn of their return to the Cameron Church.

Mrs. Magers who assists in the direction of the Methodist Choir takes an active part in the church and directs the Men's Chorus. Regular rehearsals for the chorus will be resumed on Monday, June 25, Mrs. Magers announced.

Members of the steering committee are L. W. Smith, chairman, Morris Eplen of the Lions Club, Bill Burns, Rotary Club, D. S. Wimberly, Milam County Health Unit, Myrtle Hinton, Business and Profesional Women Club, Mrs. Ed McGuire, VFW Auxiliary, and Robert Weems, chairman of the Sanitation Committee, appointed by Mayor A. N. Green.

Posters will be distributed over the city per instructions for the clean up week.

The committee is making an urgent appeal to the citizens of Cameron to cooperate to the fullest extent in order to make the campaign successful. Every person has a part in this clean-up and everyone should utilize considerable effort in making the city a more sanitary place in which to live.

Sanitary methods consistently utilized by the Health Department of any city will greatly add to welfare and health of its people. Each individual and property owner is urged to clean their own premises and have the trash collections placed in boxes or in adequate containers where it can be dumped into the trucks that will be secured to pick up the trash.

The City will furnish a number of trucks and men to load the trash in the trucks. People are urged not to trim their trees as a trash item.

Certain sections of the city will be specified on a particular day of next week for trash collection. The dates for the different areas of the city will be published as soon as they are available.

The city will get a fogging machine necessary to do a good and thorough job. The residential sections of the city will be fogged as well as the mercantile area. The chemical ingredients used in the fogging process are not harmful to people, shrubs or animals.

Stores are not being asked to close this year for the cleanup as in the past few years, but merchants will be contacted for funds to defray the expense for the campaign. Merchants have always been willing and cooperative in aiding in such a major undertaking for the city as they realize the advantage of having a clean town.

The VFW Auxiliary and the American Legion Auxiliary compose the finance committee. Miss Myrtle Hinton, Mrs. J. B. White and Mrs. Ben Reichert are on the publicity committee.

Mr. and Mrs. Sam Houston have returned from a pleasant vacation at Houston and Port Lavaca. They were guests of her sister, Mr. and Mrs. Bill Culver at Houston. The Culvers accompanied Mr. and Mrs. Houston to Port Lavaca where they enjoyed a fishing trip.

WHAT GOOD IS AN Unregistered Pedigree?

Your Tractor Serial Number is its Register of Pedigree

You know what happens to the value of pedigreed stock that isn't registered. Then what about a tractor without a serial number?

Tractors produced by present day manufacturers leave the plants of their origin with serial numbers that are intended to identify them for life.

That serial number helps establish the tractor's value, whether new or used. As a general practice banks and finance companies want a tractor's serial number before they will lend money on it and insurance companies want it before they will issue a policy.

A serial number helps the manufacturer determine if a tractor is within its warranty period. This is *your* pr tion . . . you are not left "high and dry."

The tractor's serial number is a guide in getting the right replacement parts quickly and without mistakes. If your tractor is stolen, the serial number is the best means of tracing and identifying it.

From the day you buy your tractor until the day you sell or trade it in, its serial number is your protection and guarantee. Without it, your investment has no assured value.

It will pay you to make sure your new tractor has a pedigree . . . a serial number. We hope it will be a Ford Tractor.

Three 4-H girls, Mises Jacquelyn Linke, Thorndale; Joyce Eledge, Milano; Maria Fuchs, Buckholts; 4-H leader, Mrs. Carl Linke, Thorndale; and Home Demonstration Agent, Mrs. Bertie H. Alford, attended the District 4-H Encampment at Buchanan Dam June 11-13.

Approximately 65 attended the camp, including 4-H girls, adult leaders, County Home Demonstration Agents, the District Agent, Miss Margaret Bracher of Temple and Miss Jimmie Nell Harris, food specialist from A & M College.

Group singing and playing interspersed the program of training and craft work. Mrs. Alford, as a member of the Crafts Committee, helped teach the girls to make attractive coat hangers by braiding colored plastic around regular wire hangers. About 125 hangers were completed and several more started.

The District Camp is one of the highlights of the 4-H year and is looked forward to by the three girls selected each year to attend.

About 50 4-H girls, their adult leaders and Mrs. Alford will go to the H. H. Coffield Ranch at Friendship, June 19 and 20 for their annual county 4-H Encampment. Then the following week to the State meeting.

Due to the full month of 4-H activities, Mrs. Alford, Home Demonstration Agent, will not met with any Home Demonstration clubs in June.

Canning ad freezing foods is in full swing. Gardens are fine and vegetables and roasting ears plentiful. The best way to combat high food prices is to take advantage of the generous supply and can and freeze for winter use. There are new bulletins on freezing, cannig ad picklig in the Extension Office, which are available to anyone wanting them. Call by, call, or write for them.

Council met Monday afternoon, June 18 at 2 p. m. in the basement of the Lutheran Church in Fockdale, in a regular meeting. Ten of the 12 Home Demonstration Clubs were represented with 30 people present. Mrs. Geo. Young, Council Chairman, presided.

Council voted to pay car and food expenses for one 4-H Sonsor and 4 Milam County 4-H girls to Colege Station August 29th. Th egirls are to serve as pages at the Texas Home Demonstration Association State Convention. Mrs. Carl Linke of the Thorndale Club, volunteered to go as the Sponsor. The girls to represent Milam County will be chosen at the County 4-H Camp June 19.

Other business of the day was a discussion concerning the Home Demonstration Women's Encampment in August. A committee was appointed to decide on a location for the camp, and report to the July Council.

The Texas Home Demonstration Association delegates to the State Convention were elected as follows: Mrs. Otis Charles, Duncan Club; Mrs. Fritz Doss, Forest Grove Club; and Mrs. W. E. Boyd of Gay Hill Club. The alternates were Mrs. Frank Hanel of Hoyte Club and Mrs. Roy Butler of Conoley Club.

Joyce Eledge of Milano 4-H Club and Jacquelyn Linke of Thorndale 4-H Club, gave a report and showed some craft products which were made at the District 4-H Encampment at Buhcanan Dam which they attended last week.

The meeting adjourned with a nice refreshment course and social hour to follow.

Mrs. Eddie Dodson spent two weeks in Dallas visiting friends. She was accompanied home by Mrs. Clifford Dunn, who will visit in the home of Mrs. Dodson and Mrs. Valon Fogle. Mrs. Dunn will go on to San Antonio within the next few days for an extended vacation.

Glenn Edward Lippman Aggie Football Star Marries El Campo Girl

Miss Barbara Lauglin, daughter of Mrs. J. G. Collins of Dickinson, the bride of Glenn Lippman, son of Mr. and Mrs. Louis Lippman of El Campo and nephew of Mr. and Mrs. Henry Lippman of Cameron, Wednesday June 6, at 9 A. M. in the St. Philip's Catholic Church at El Campo.

Rev. John Wagner performed the double rings ceremony before an altar banked with bouquets of white blossoms and flanked on either side by floor baskets of white gladioli. Lighted cathedral tapers in branched holders cast a soft illumination for the ceremony.

Mrs. Cleburne Wendel, organist, presented traditional wedding music and accompanied the choir who sang "Ava Maria," and "On This Way O Beautiful Mother."

Given in marriage by D. G. Dickinson, th ebride was gowned in a cloud white illusion and chantilly lace over gleaming white bridal satin, fashioned with a voluminous floor-length gathered skirt that formed a slight train in back. The strapless bodice was topped with a fitted lace jacket designed with a small roll collar, cap sleeves, flared peplum tapering to a point in back and fastened in front with tiny self covered buttons.

Her veil of imported French illusion, finger tip length, was caught to her head with a half crown of pearlized orange blossoms. As her only jewelry she wore a string of pearl earrings and she carried a bouquet of lilies of the valley centered with a white orchid.

Mrs. Wilford Socha attended the bride as Matron of Honor and the bridesmaids were Miss Patty Jean Martin of Garwood and Miss Betty Joyce Sikora of Wharton, Miss Suzanne Lippman of Cameron was junior bridesmaid.

The attendants were gowned alike in white lace over lilac taffeta fashioned with strapless fitted bodices, complimented with fitted packets of the lace and boufant gathered ballerina length skirts. Their headdresses were large picture hats of matching lilac taffet, and lilac hued opera pumps complimented their ensembles. They carried bouquets of yellow roses.

Attending the groom as best man was Jaro Netardus Jr., of El Campo and ushers were Elo Nohavitza of El Campo and Charles Royalty of Freeport and Robert Laughlin, brother of the bride.

The bride's mother was dressed in a semi-formal gown of blue organza with white accessories and a rose corsage. Mrs. Lippman, the groom's mother chose a semi-formal of peach organza with navy accessories.

A reception was held at the Magnolia Tea Room, immediately after the ceremony with Mr. and Mrs. J. G. Collins, hosts. The house party was composed of Mrs. M. Laughlin who served, Mrs. Clarence Martin was at the punch service and Mesdames Bill Elliott and Kenneth Adkins who registered the guests.

The couple left for a wedding trip to New Orleans and the bride chose a natural linen suit with natural accessories. Her corsage was a single white orchid.

Local Guard Receives Superior Rating By Army Instructor

by Charles Adair

Camp Polk, La.—A superior rating by the army instructors office was given to the advanced detachment of the 649th Armored Battalion for their efficiency in planning and preparing camp for the arrival of the 336 officers and enlisted men from the 649th now at Camp Polk.

The advanced detachment, led by Capt. Frank W. Sheppard, a vocational agriculture from Hutto, Texas arrived at this army camp June 7, three days before the main body of the battalion pulled into camp. They immediately drew bedding rations and all utilities turned on in the 649's area. They then cleaned the barracks and assigned them to the batteries from Temple, Belton, Cameron, and Tyler as they arrived into camp Sunday June 10.

This same detachment will remain in camp one extra day after camp to check all equipment back in and take care of all last minute details.

The enlisted men under the command of Capt. Sheppard who made up this detail are: from Temple, Sfc. Albert L. Kamenicky, Cpl. Ronald L. Behne, Cpl. Roy E. Jennings.

Cpl. Drayton A. Schader, Pfc Paul Lara, and Pfc Seth C. Moseley, from Belton, M-Sgt. Peter F. Kunz, and Cpl. Joe E. Wardlaw, from Cameron, Cpl. Louie W. Austin, and Pfc. Aubrey A. Ray, from Tayler, Sgt. Luis H. Seidl, and Sgt. Eugene E. Kropp.

The 649th Anti- Aircraft Battalion from Centeral Texas learned in a hurry about the unpredictable weather at this army base.

The Cameron, Temple, Belton and Taylor soldiers arrived in a blistering sun, then by the time they found their barracks they were hit with a swirling rain and dust storm.

The 649th, like most of the 49th Armored Division of which it is a part, converged on Camp Polk Sunday by motor convoy and trains. Monday they were performing the thousands of details of unpacking and settling men and equipment into their new homes for the next two weeks.

Battery "C" from Cameron arrived in Camp 54 strong led by their Commanding officer, Capt. Rudolph E. Michalka. After spending Monday and Tuesday getting organized and their training schedule adapted to meet the changing conditions of the unpredictable weather of Camp Polk, their actual training was able to get underway.

Tuesday afternoon the firing crew of the 40mm got the first workout of of summer camp of tracking planes flown over the target area.

The remainder of the Cameron Unit attended classes in their respective fields of wire, radio and motor maintance.

The Army Acting Surgeon reported the 649th to be in good physical condition as he has treated only two men from this battalion, neither being from Cameron.

Lt. Col. Olin F. Brewster, Battalion Commanding Officer, said the 659th had 94 per cent of its strength at camp, a better than average percentage even after not including several men away at Army training schools.

The Bill Mareks Are Vacationing In Canada

Post greetings from the Bill Mareks were received at the Cameron Herald this week and they are enjoying the cool climate in Canada.

Mr. and Mrs. Marek and their daughter, Mrs. Billy McCoy left Cameron Saturday night, June 2 for a two weeks vacation through the northwestern states and Canada. On their way to Canada they stopped at many of the unusually interesting sites in many of the states.

At Banff, Alberta, province of Canada, snow was falling and was around 6 or 7 feet deep on June 9. They plan to visit many more of the summer resorts in Canada as well as in the north central states.

They will return to Cameron sometime next week.

Personal cooking habits are good guides to what type automatic gas range you intend to buy. For example, if you bake a lot, then a gas range with two ovens is a logical choice. However, if your preference is for broiled foods then by all means choose a range with a waist-high broiler and a second broiler section underneath the one oven.

• • •

When French Toast is broiled it doesn't get soggy. Use your favorite recipe, arrange slices on broiler pan 5" from low flame, broil golden brown on one side, flip over to broil on the other side.

• • •

Full length mirrors cover the front of some gas heaters to add extra usefulness and light to a room. They are available in either single or dual room units.

• • •

For Nut Brown Rice: Butter, monosodium glutamate and finely chopped peanuts or peanut butter forked into hot cooked rice. Delicious addition under creamed meat or vegetables.

A rubber scraper is an excellent stirrer because it's soft enough not to break up fruits and vegetables.

Student Deferment Draft Considerations Announced By Board

Under provisions of SSR 1622.10 (b) (3) and SSH 1622.10a, student registrants are (1) required to have completed one year of college and (2) must have been accepted for admission by a college or similar institution to the class next commencing in order ot be considered by a local board for Class 11-A(s).

In order to be considered, the registrant also must (1) make a request in writing to the local board for occupational deferment as a student, and (2) should ask his college to submit to the local board (a) evidence of his class standing and (b) evidence that he is in school or has been accepted for admission to the class next commencing. The educational institution furnishes this information on College Student Certificate (SSS Form No. 109.) Taking the Selective Service College Qualification Test is optional with the student. If he takes it, the results, if a satisfactory score is made, must be considered by the local board.

It is believed that many registrants who intend to pursue their education do not realize they must make a request to their local boards for occupational deferments as students. It is also believed such registrants do not understand that certificates of class standing and admission on SSS Form No. 109 will NOT be submitted to local boards by educational institutions unless the student or some other person requests it.

In order to get this information to the student so that they may exercise heir rights under the Selective Service Law, local board No. 92 is contacting each and every registrant classified 1-A to determine whether or not they are students. However, it is possible that some may be missed, so therefore each and every registrant in Milam County who is a student or plans to attend school and come under para- their local Board at once in order to comply with the requirements for college students to request deferment.

Chevrolet Dealers Are To Observe Special Period For "Powerglide" Showing

Celebrating the production of 500,000 Powerglides, Chevrolet dealers throughout the country have set aside a special period for the demonstration of its Powerglide automatic transmission to the public.

According to R. G. Grabein of the Grabein Chevrolet Co., the activity here will run from June 18 to June 30.

"Because of automotive shortages that continue to exist,' said Mr. Grabein, "Powerglide to many automobile owners so far is merely a name. We have, of course, been able to demonstrate its advantages to many customers but due to demand, the opportunity to do so has been limited.

"Now, observing a production milestone and an extremely meritorious manufacturing achievement, we are devoting two weeks to demonstrations. We have arranged to obtain an adequate number of Powerglide-equipped passenger cars and will hold them through this period exclusively for demonstrations."

Mr. Grabein pointed out that Power glide differs from other automatic transmissions on the market in that it represents a completely automatic "Power Team." Included, besides the revolutionary automatic shift, are a more powerful engine of 105 horsepower and an "Economiser" rear axle.

"The opportunity for mass demonstrations here will show what owners have learned in more than a billion miles of driving," Mr. Grabein declared. "Even a brief trial will prove that Powerglide-equipped cars are easier and more restful to drive.

"With Powerglide, the care has no clutch. This means the elimination of hundreds of manual operations in the course of an average day's driving. The result is that a driver finishes the day more refreshed and relaxed. A person has to experience the effortless process of automatic Powerglide fully to appreciate its advantages.

"We urge everyone not acquainted with Powerglide to visit our showrooms during the special demonstration period to find out for himself all the advantages of Powerglide automatic transmission."

Symptoms Of Polio More Prevalent During Summer Months

Jack Baker of Waco, district representative of the National Foundation of Infantile Paralysis was in Cameron last week in connection with the work of the March of Dimes Campaign that took place in the early spring.

Mr. Baker expressed his gratitude over the good job the workers had done in the polio drive this year. Around $2,300 was taken in the drive this year which will help greatly in the aid of the polio victims and medical research work program that is being done through the National Foundation in anticipation of a serum or vaccine for the prevention of poliomelytis.

There is reason to believe there is greater risk to polio infection in the summer camp than in the child's home, according to officials of the National Foundation for Infantile Paralysis.

Although a camp is an assembly of children at ages of greater susceptibility, Foundation officials take into account the off-setting factor of comparative isolation of campers from outside and new contacts.

Dr. Hart Van Riper, medical director of the March of Dimes organization, has advised that if infantile paralysis appears in the vicinity to take the following steps at camp.

1. Watch for symptoms— headache, sore throat, slight fever, nausea, constipation or diarrhea, fatigue and listlessness, and the more definite stiffness of the neck or back, pain or soreness in muscles, or trembling.

2. Guard against over-fatigue or chilling.

3. Check screening to see that latrines and ktichens are well protected against flies.

4. Re-emphasize cleanliness and hygiene. Frequent handwashing is important, especially before meals and after visits to the toilet.

5. Limit visitors to camp to lessen chances of the virus being brought in.

Dr. Van Riper urged all camps to have available the names and addresses of county and state health officers, the state representative of the National Foundation for Infantile Paralysis, and the nearest volunteer chapter of the National Foundation.

DEVIL AND THE DEEP BLUE SEA

No one will crab about this deviled dish when you serve it as an appetizer, as a main dish at a luncheon or buffet supper. Deviled crab is really tops for summertime entertaining. And made with bread crumbs, there's nothing easier.

DEVILED CRAB

2 small cans, or 2 cups crabmeat
1 teaspoon mustard
¼ teaspoon pepper
½ cup melted butter or margarine
2 teaspoons lemon juice
2 cups soft bread crumbs
1 teaspoon salt
2 hard boiled eggs, minced
1 tablespoon minced parsley
1 teaspoon onion juice
½ cup dry bread crumbs

Pick over crabmeat and remove any fibrous membranes. Add remainder of ingredients except dry bread crumbs and mix well. Turn into individual ramekins or shells. Sprinkle tops with dry bread crumbs. Heat thoroughly in a hot oven, 400° F., about 10 to 15 minutes.

To make soft bread crumbs, crumble slices of fresh bread with fingers, or place two slices together at a time and cube with a sharp knife. Crusts may be left on or removed, as desired. But never throw crusts away, they're perfect for dry bread crumbs.

To make dry bread crumbs, grind dry bread through a food chopper, using a fine blade, or toast and crush with a rolling pin. Or use packaged dry bread crumbs.

New Texas Corn Hybrid To B Rleased In 1952

Seed of Texas 30, a new corn hybrid developed by the Texas Agricultural Experiment Station, will be available for use by farmers in 1952, announced Dr. J. S. Rogers, agronomist in charge of corn breeding work for the Experiment Station.

This newcomer represents a combination of inbred lines of Yelliw Dent and Yellow Surcropper varities. It produces larger ears than either Texas 26 or 28. In eight tests conducted in the past two years, Texas 30 averaged slightly higher yields per acre than Texas 24, 26, or 28—the three most popular corn hybrids grown in Texas.

The new hybrid matures slightly earlier than Texas 24 or 28, but it is five to ten days later in maturing than Texas 28.

Tests have shown that Texas 30 is well adapted to the Blackland Prairie and the East Texas Timber Region. Rogers, who developed Texas 30 and other recent Texas corn hybrids recommended, said, "Past behavior of the breeding of this new hybrid indicates that it will have a very wide range of adaptation and probably can be grown successfully wherever othe Texas hybrids are recommended."

Broad tests are being made with Texas 30 this year, and a good supply of seed should be available for 1952, Rogers said.

4-H Boys And Girls In Roundup At A & M

Foreign Students will help Texas 4-H boys and Girls to fulfill their 1951 theme, "Working Together for World Understanding", at the State 4-H Roundup at Texas A & M College, June 24-27.

Miss Gladys Darden, home management specialist, who is in charge of this part of the program, said 25 colleges will participate in the Roundup. And three International Foreign Youth Exchange Students, now living in Texas, will be present.

Two German students will be present from Texas Technological College. And from Texas University, nine students will represent an equal number of countries, including China, Canada, Hungary, Chile, Afganistan, France, Iraq, Turkey, and the Philippines. Students enrolled at A & M from Egypt, Mexico, Puerto Rico, Pakistan, India and Venzulea are expected to participate in the Roundup.

Two foreign students will work with each group of boys and girls. In these groups, the 4-H members will learn how the foreign people live—their customs, type of agriculture, type of government and recreational activities.

The foreign students will take part in all activities at the Roundup, said Miss Darden. The program will include a party June 25, at which flags of foreign countries will be used for decorations.

Enemy Offensive Is Believed In Making

(From The Daily)

Tokyo, Monday June 18— Communist forces in North Korea gave indications Sunday that they may try to retake the offensive from northward-pushing United Nations troops.

The Reds, fighting with their backs to the Kumsong River, forced back an Allied tank-infantry task force with point blank bazooka fire.

They were also reported to be bridging the Pukhan River north of the Hwachon reservoir in what Allied spokesman thonght might be an indication of preperation for an offensive.

The tank bazooka battle came amid reports of generally stiffened resistance all along the East Korean fighting front which slowed the Allied drive to a crawl in this sector.

United Nations antiaircraft personnel in the Seoul sector were kept on the jump early Monday morning when a lone Communist biplane bombed and straffed Kimpo airfield and Inchon, two big Allied bases near the South Korean capital.

The attacking plane was believed to be the same "mystery" ship that bombed Suwon, 16 miles South of Seoul, 24 hours before and has been harassing United Nations troops in the area for the past several days.

Sixty-six miles northeast of Seoul the Communists gave increasing evidence of a determination to defend their big base of Kumsong.

The trucks that do the most for you-

NEW DODGE "Job-Rated" trucks

...with features you've always wanted

More power with thriftier performance

You'll get power to spare—with economy to boot! Eight Dodge truck engines—94 to 154 horsepower—have power increases up to 20%. High compression gives flashing performance with less fuel. For year-in, year-out economy you get 4-ring pistons with chrome-plated top ring, "hotter" spark plugs (on models through 1 ton), heat-resisting exhaust valve seat inserts, 45-ampere generator, and moisture-proof ignition.

Better load protection...easier handling

Load and driver get the smoothest truck ride ever known! Revolutionary new "Oriflow" shock absorbers on ½-, ¾-, and 1-ton models smooth out bumps and jolts on any road . . . And driving is made even safer with easy-acting, worm-and-roller steering gears on most models. To add to safe handling ease, you also get cross-steering, shorter wheelbase, wide front tread, and shorter turning diameter.

Greater safety for both driver and load

Cyclebond brake lining on all models assures positive, smooth stops with long lining life—because there are *no* rivets! A brand-new development—*Tapered* Molded Cyclebond lining—is featured on all models, 1½-ton and up, except air-brake models. It's *extra*-quiet, *extra*-smooth, *extra*-long-lasting! And Dodge gives you the added safety of all-steel "Pilot-House" cabs—with super-sized windshield, lower hood line, and relocated windshield wipers for better visibility.

For smoother performance . . . longer truck life FLUID DRIVE! A Dodge exclusive

Available on ½-, ¾-, and 1-ton models. This proved fluid coupling between engine and clutch cushions starts, protects more than 80 parts, including entire drive line. Smoother starts give added protection to your load. Driving is easier! Less gearshifting! Your truck lasts longer! Ask us for copy of free gyrol Fluid Drive Booklet.

PLUS all these time-proved features Dodge Trucks have had for years

Steering column gearshift, standard on ½-, ¾-, and 1-ton models with 3-speed transmission. *Independent hand brake* for added safety. *Synchro-shift transmissions* (3-speed, 4-speed, or 5-speed) rugged, silent, precision engineered. *De Luxe cabs* (with rear quarter windows) available on all models. And many others!

What "Job-Rated" means to you

A Dodge "*Job-Rated*" truck is engineered *at the factory* to fit a specific job . . . save you money . . . last longer.

Every unit from engine to rear axle is "*Job-Rated*"—factory-engineered to haul a specific load over the roads you travel and at the speeds you require.

Every unit that SUPPORTS the load—frame, axles, springs, wheels, tires, and others—is engineered right to provide the strength and capacity needed.

Every unit that MOVES the load—engine, clutch, transmission, propeller shaft, rear axle, and others—is engineered right to meet a particular operating condition.

Come in for a good deal on a truck that fits your job...a DODGE "Job-Rated" TRUCK

CAMP NOTES

(By Mrs. Harry Haraway)

Brownies and Girl Scouts swarm into Wilson-Ledbetter Park each morning at eight o'clock for a full day's activities.

The camp is composed of the following staff: Mrs. Lester Williams, Director; Miss LaNell Kuehl, Business Manager, Mrs. H. G. Haraway, Day Camp Committee Chairman and Mrs. Frances Mikula, Shopper.

The Leaders and Assistants are as follows: Mrs. Charles Brady, Leader and Mrs. LeRoy Thompson, Assistant. They have the second grade Brownies and have named their camp site, "Rock Camp." because it is outlined in rocks.

The 3rd grade Brownies are led by Miss Tommie Dell Jenness, leader and Miss Jane Flinn, Assistant. They have named their Camp "The Gay Five." (There are only five.)

Mrs. David Shapiro, leader and Mrs. Felix Matula, Assistant, have the Catholic Brownies, and they have named their camp, "Skunk's Hallow." Your Reporter was told this morning that they expected to change their name to "Redbug Camp." I did not ask their reason, though it was clear enough.

Mrs. Almarie Smith, has a troop of Brownies also and they have named their camp, "Cowswitch." Somebody has been grazing their cows on City property!

Mrs. Albert Horstmann has girl scouts from her own troop and from Mrs. Conrad Jekel and Mrs. Paul Smith's troops. She has a lively group. They have named their site "Camp 56."

Mrs. Louis Raska as leader and Mrs. Shuguit as Assistant, have the intermediate Scouts and they have named their camp, "Boot Camp, troop No. 8.

Mrs. Horstmann's troop invited Miss Frances Sowell, Area Field Director, and Mrs. Williams out to their site for lunch yesterday.

The morning activities start with a flag raising ceremony folowed by the Pledge of Allegience, then they break up into their respective units for their day's activities. They swim, cook their lunch out over a camp fire, hunt bugs, hike and numerous other activities. All troops assemble at the Little House at 3:30 to lower the flag and prepare to go home.

Yesterday the Camp had a visitor in addition to Miss Sowell. Miss Renee' Miller of Lake Charles, La., visited with Miss Joyce Edmonds in the Horstmann troop.

An invitation is extended to all parents who wish to visit the Camp to come out between the hours of 8 and 12 o'clock Friday morning.

Visits from the parents during these hours will be much appreciated because we want you to know what your girls are doing.

At the close of the third day of Camp, some sixty Brownies and Girl Scouts sang "Day is Done" and turned their tired but happy faces toward home. They had been busy all day with swimming under the very capable direction of Miss Joyce Allison, nature study, blue prints making, plaster of Paris plaque making, eating, resting and play.

Your reporter visited some of the camp sites and was amazed at the ability of the Brownies. I saw some very pretty placques and another troop made things out of oil cloth. I hope to visit the other sites Friday between scratches. The site called "Redbug Hollow" (or Skunk Hollow) is well named. I know 'cause I visited there! The camp had a visitor today.

Mrs. C. J. Warren of Taylor, a member of the Area Day Camp Committee. Mrs. Warren and Mrs. Williams were invited out to lunch by "Boot Camp, Troop No. 8" led by Mrs. Louis Raska and Mrs. J. W. Sheguit. During the rest period which followed lunch, Mrs. W. A Morrison, Sr., told stories to Brownies I never saw so many small bits of humanity sit so still before. Even my two offsprings sat quietly. Never saw that happen before.

The camp is expecting visiting parents between the hours of 8 and 12 today.

It has been a pleasure to work on the camp staff and the thanks from the whole city of Cameron should be extended to Mrs. Lester Williams and the leaders and assistants who gave unselfishly of their time, talents and labor. Final account of the camp will be coming tomorrow.

The four day Scout Camp ended Friday at four P. M. The troops assembled at the Little House at 2:20 for the closing exercises and refreshments.

Before noon, your reporter finished visiting the Camp sites and was well entertained at each one. I arrived at Cow Switch camp and listened to Mrs LeRoy Thompson conduct a nature study course. She lost me when she said the sharp needle like things on prickly pear were modified leaves! Where I came from they were called "strickers"!

Thence to Camp 3-5-6. The "3" was added because Mrs. Horstmann has three girls from one troop, five from another and six from another. They were in the process of cooking coffee can caserole dinners. I was invited to stay but the Doc has me on a most inconvenient diet and I had to decline their nice invitation. I saw some pretty what not flower arrangements they had made in egg shells by using plaster of paris and a little paint. Wonder if Iiz Newton has gotten that paint off her hands yet? This troop had a visitor today, Miss Jane Sherrod from Galveston, a guest of Paula Jean Thompson.

By the time I had huffed and puffed up the hill to Boot Camp, Troop No. 8, I was ready for a rocking chair and a cold drink of water, but they were cooking salmon croquets and I did not trust myself to stay around— that diet again. Did stay long enough to look at their pretty egg shell flower arrangements tho'.

The camp has had a few town visitors. This morning Mr. and Mrs. W. T. Hanes came out and a couple of days ago Little Miss Jane Burns, a future Brownie, came out accompanied by her mother, Mrs. Bill Burns, looked over the camp and said Hi to her Aunt Bea.

For the closing exercise this afternoon, each troop was responsible for some part of the entertainment. Rock Camp had us all patting our feet as they swung out with "Skip To My Lou"; Redbud Hollow came forth with their rendition of "On Top of Old Smoky." Wonder if they have Redbugs up there?

The Gay Five sang that they had "Something in Their Pockets," a great big Brownie smile! Nice.

The gals from Cow Switch Camp came forth with some mighty purty singing. By the way, they had Mrs. Williams out for lunch today. Camp 3-5-6 announced to all they had a play to put on but would not tell us the name. In a minute we all knew it was the Three Little Pigs and the bad old Wolf.

Boot Camp,(Troop No. 8 did some nice harmony work on "Mockingbird Hill."

Mrs. Williams called for a representative from each camp to tell what they liked best about the Camp. Imagine my surprise when the majority said they liked the eating, hmmmmm!

Following that we had strawberry ice cream, packed up and went home feeling as tho' we had consumed the best that the four days had to offer.

The Brownie and Girl Scout Camp closed Friday with a feeling of satisfaction by the staff and leaders and assistants.

The staff extends its apreciation to the following for their help in making the Camp a success: Bert Nicholson, who loaned us a Dr. Pepper ice box in which we kept our food and ice; Buddy Wiese and Woodson Lumber Co. for various supplies and equipment; St. Edwards Hospital for the plaster of paris; Whatley Grocery and particularly W. T. Whatley, Jr., who volunteered to furnish the Camp with Groceries at cost and who also delivered the same for free; Mrs. W. A. Morrison, Sr., for coming out and giving the Brownies a story hour; "Snooks" Michalka and Don Edmonds, life guards. "Snooks also helped to instruct swimming; Mrs. Clifford Swift, Mr. Chas. Brady, Sr., and L. G. Smith for the ice cream sticks they brought at various times; the American Legion for the use of their hut; the City Council for their cooperation in cleaning the park and other deeds; Judge O. D. Graham for the large box of canteloupe. All the things listed along with the cooperation from many more made our Camp a success.

Also the staff sorta' wants to say thanks to their husbands for putting up with cold lunches, disarranged homes and tired wives! The cooperation and visits of the parents were much apreciated by all. Its nice to know you are interested in the work done for your children by others. The $2.00 fee from each girl made the Camp self-supporting, a fact we are very proud of.

Girls who enjoyed the Camp were: Seraphine Wohleb, Lorine Wohleb, Vera Ann Perrin, Mary Francis Lesikar, Lou Ann Thompson, Agnes Sheigut, Barbara Schattle, Theresa Wohleb, Josephine Wohleb, Mary Alice Duncan, Sharron Laywell, Patricia Anderle, Barbara Mondrik, Judith Shapiro, Joyce Terry, Jackie Mauldin, Delores Zalesky, Paula Thompson, Barbara Coward Patricia Grimes, Gail Griswold, Beverly Lamb, Lucy Cheeves, Martha Barnett, Nancy McCelvey, Laura Swift, Nancy Swift, Patricia Lee Johnson, Annettee Mees, Pat Matula, Anita Trdy, Lois Horstmann, Marie Horstmann, Ann Allison, Susan Moore, Helen Reid, Marilyn Hughes, Caroline Knipp, June Edmonds, Lydia Krenek, Connie Mauldin, Jean Ray Lester, Marie Spicah, Mary Kestenbaum, Diane DuBoise, Virginia Sue Raley, Carol Ann Heitmann, Helen Raye Matula, Betty Raska, Rudolphine Hoelscher, Joyce McLain, Barbara Woodall, Rosemary Matula, Katharine Absnaider, Elizabeth Newton, Catherine Mikula, Della Ann Bickett, Beulah Malone, Sandra Smith, Jane Sherrod, and Renee' Miller, Barbara Gurecky, and Dorothy Dillon.

Young People Attend Conference At Camp Lake View Recently

Several members of the Youth Fellowship attended the Conference Youth Assembly at Camp Lake View and returned this week, all reporting a wonderful trip.

The conference was educational as well as recreational and the group enjoyed the many festivities held during the week. There were a number of isirational speakers at the camp that were in charge of directing the many departments.

Those attending from the Cameron Methodist Organization were: John Henderson, Jane Henderson, Sarah Esslinger, Charles Kahler, Billie Nell Johnson and Max Shuemate.

The group learned many things that will be helpful in making the MYF a better organization.

Mr. and Mrs. J. T. Owings and sons of Chicago have returned to their home after a weeks visit in the home of Mr and Mrs. Jack Owings. Other recent visitors in their home were Mr. and Mrs. Jack Owings Jr., and chindren, Jack Carson, and Kay Redincoat all of Houston, Mr. and Mrs. Charles Schraider and daughter, Norma Gail and Ella Weise all of Austin and Miss Nancy McLean of Jacksonville.

Mrs. W. N. Moody is a medical patient in Newton Memorial Hospital. Her many friends wish her a speedy recovery.

WORLD-FAMOUS BEERS CAN'T TOP LOCAL FAVORITE, LUMBERMAN SAYS

New "Pilsenized" Brew Makes News

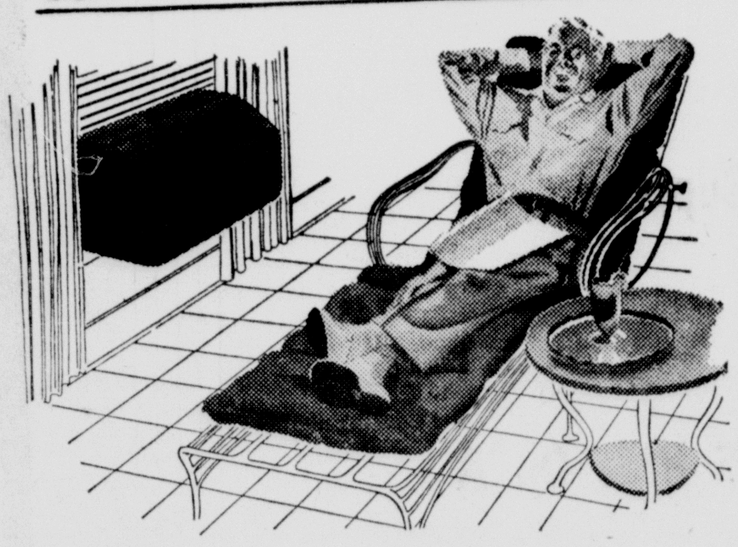

What does it take to make a beer one of the world's best?

Carl Rowland, prominent lumberman, of Dallas, says he'll leave the technical points to the beer experts, but for his own taste, he wants a beer that's really dry and light . . . and free of bitter aftertaste. That's what led him to select Southern Select above all others. "I don't think I'd be going out on a limb if I said I've never tasted a better beer than new Pilsenized Southern Select," he remarks. "Even world-famous beers don't top that dry, bitter-free flavor!" See what you think. Try today's great Southern Select. Compare it with other famous beers you've tasted. See if you, too, won't give your vote to Pilsenized Southern Select.

Electric Room Air Conditioner!

"We've just begun to live . . . indoors, that is! And you will too, when you install a modern, Electric Room Air Conditioner. Why? Because you can make the weather just the way you like it." "Cool, comfortable temperature is not the only thing that makes the Electric Room Air Conditioner worth all you pay for it . . . it has plus value! It purifies and humidifies the air, and circulates it at an even temperature throughout the room; filters out dust, disease germs and hay fever pollen; reduces the cost of cleaning and redecorating; and equally important, it costs so little to operate."

"You'll find out, like I did, that it's the finest investment in comfort, health, and happiness you'll ever make."

Buick's newest engine— the F-263 Fireball— gives this year's SPECIAL the highest power in SPECIAL history

Remember-only BUICK has a FIREBALL ENGINE

WE get a chuckle, sometimes, over all the fuss that's being made about "new engines."

You'll note that the key feature of their design in every case is the valve-in-head principle—whether these engines are already in production or still in the dream stage.

Fact is, it takes this design to get the most from "high compression"—and how high you can go depends upon the available fuel. Using this design, wartime aircraft engines operated on 100 octane gasoline.

It also takes this design to get the more-miles-per-gallon which folks like in an automobile.

So what gives us a chuckle is this:

No other type of engine has ever been used in a Buick—which means that Buick owners, all along, have been getting a lot of things that others have just "discovered."

When you come to check the field you'll find that there's a sweet freedom from roughness to this engine's operation—tracing to the fact that the whole mechanism itself is engineered smooth, and the further fact that every Fireball Engine gets a Micropoise balancing after assembly.

But that's not all. They get something more—vastly more—because *today's Fireball Engine has one standout feature found in no other automobile.*

That name "Fireball" isn't just a trick word. It describes what happens in this engine. Inrushing fuel rolls into a swirling ball of gasoline vapor compacted around the spark plug. And when the fat spark sets it off, a cyclone of power lets go.

Of course, a Fireball Engine, being a valve-in-head, keeps pace with high-test fuel, when it comes to "high compression."

But what's more important in the present state of the world is this: *A Fireball Engine is designed to handle the not-so-high-test fuel we may be getting in the not-too-distant future.*

So, if you want to sample all that's fine in motorcar engines, your Buick dealer is the man to see. Come in soon, and find out what the rest of the world has been missing.

Equipment, accessories, trim and models are subject to change without notice.

Tennis Courts Need Repairing; City To Assist School Board

Dr. C. G. Swift, president of the Cameron School Board and Frank Cheeves, member of the board appeared before the City Council Tuesday night, in regard to some work needed on the Tennis Court at the Yoe High School.

Dr. Swift as spokesman, told the Mayor and board of aldermen that a large number of holes were in the court and requested that the city have these holes filled up with the same material as used in filling up the holes in the streets. Dr. Swift, Mayor A. N, Green and Alderman Robert Weems examined the courts recently and found the immedate necessity of having this work done.

He said that the school board plans to resurface the courts after the holes have been filled up with an approximate cost of five or six hundred dollars, and expressed his appreciation to the council and Mayor for any help and consideration toward taking care of the matter.

Alderman L. Van Perkins made a motion that the city take care of the work on the court and plans be carried out as directed by Dr. Swift. Alderman O. B. Harden seconded the motion. The motion carried unanimously. The schools, one of the most important institutions in any city, should be maintained and kept in the best condition.

COUNCIL TO STUDY—

(continued from page one)

major problem with one of the aldermen being absent. He told the group that, at the last meeting of the council, a motion was made and passed to call a bond election for $55,000.00, and since he was ill he did not appreciate th ecouncil carrying out such important business unless all the members were present.

Mr. Perkins said that a number of firemen had called him late Tuesday afternoon that they were against the petition being circulated to place the municipal building on the present site of the fire station, but for business reasons were forced to sign the petition.

He said that a number of taxpayers has told him that the election would definitely be defeated if bonds were being voted to place the municipal building where the fire station is now locatd.

Mr. Perkins said that one lady called him that she could get 1500 signers to a petition to place the municipal building in a central location, namely the Central City Park lot or some other central location in the city.

The controversial element on the site is many ways will hinder the progress of the town. If several representatives of Chamber of Commerce, the Junior Chamber of Commerce, Fire Department, Rotary Club, Lions Club, American Legion, B & P Women Club and all the other civic organizations would meet and work out some constructive plan and method of financing the erection of a municipal building in a location that would be to the advantage of the city, not to the advantage of any individual interest or for any personal benefit.

In all undertakings by any group of citizens or civic organization, the interest of the city and its progress should be kept in mind at all times. If the progress of the town is to be maintained, cooperation from all the citizens must be had.

MCALLEN FARMER—

(Continued from page one)

the bale to Houston along with Sylvester Martinez, 50, the grower, left McAllen about 6:30 p. m. Saturday and said he made up to 80 miles per hour on the open stretches.

Martinez farms 60 acres of Rio Grande River bottom land near La-Grulla.

He won the lucrative cotton derby —which means honor and several thousand dollars bonus— after a most hectic day.

He showed up at McAllen at the Gin of the Farley and Williams Gin Company at 3 p. m., during a pouring rain, according to W. J. Williams, co-owner of the gin company.

Finally it was completed and it was found to weigh only 400 pounds. Inasmuch as the first bale must, according to a rule set by precedent, weigh at least 450 pounds. Martinez had to head back to the field for more cotton.

After picking more than 200 pounds additional, Martinez hurried back to the gin and at around 6:15 p.m. the bale was completed, weighing approximately 565 pounds, Mr. Williams said.

So, at 6:30 p.m., the bale, Mr. Martinez and Mr. Schaefer sped out of McAllen, headed for Houston.

The bale is "typical" Starr County cotton, grading middling bright, according to Mr. Williams.

Mrs. W. H. Fletcher plans to leave early Wednesday for Austin where she will attend the wedding of her daughter, Billie to Bob Howard of Austin. The wedding will take place Friday, June 22 at the First Baptist Church at Austin. Teddy Ray, her son will also attend the wedding on Friday. Billie is well known in Cameron.
